Short versus long gonadotropin-releasing hormone analogue suppression protocols for superovulation in patients > or = 40 years old undergoing intracytoplasmic sperm injection.
anno pubblicazione: 2005

Sbracia M, Farina A, Poverini R, Morgia F, Schimberni M, Aragona C. Short versus long gonadotropin-releasing hormone analogue suppression protocols for superovulation in patients > or = 40 years old undergoing intracytoplasmic sperm injection. Fertil Steril. 2005 Sep;84(3):644-8.

Number of embryos transferred and implantation.

anno pubblicazione: 2004

Giannini P, Piscitelli C, Giallonardo A, Sbracia M, Morgia F, Torti M, Montigiani M, Schimberni M. Number of embryos transferred and implantation. Ann N Y Acad Sci. 2004 Dec;1034:278-83.

A controlled trial of natural cycle versus microdose gonadotropin-releasing hormone analog flare cycles in poor responders undergoing in vitro fertilization

anno pubblicazione: 2004

Morgia F, Sbracia M, Schimberni M, Giallonardo A, Piscitelli C, Giannini P, Aragona C. A controlled trial of natural cycle versus microdose gonadotropin-releasing hormone analog flare cycles in poor responders undergoing in vitro fertilization. Fertil Steril. 2004 Jun;81(6):1542-7.

Successful paternity with microassisted fertilization after total body irradiation-based conditioning for autologous bone marrow transplantation.

anno pubblicazione: 2003

Petti N, Anghel G, Schimberni M, De Rosa L, Mancini S, Metro G, Villaccio B, Majolino I. Successful paternity with microassisted fertilization after total body irradiation-based conditioning for autologous bone marrow transplantation. Hematol J. 2003;4(4):285-8.

Single embryo transfer

anno pubblicazione: 2003

NUMBER OF EMBRYOS TRANSFERRED AND IMPLANTATION - Pierluigi Giannini, Claudio Piscitelli, Annalise Giallonardo, Marco Sbracia, Francesco Morgia, Monica Torti, Monica Montigiani, Mauro Schimberni

Follicular fluid adrenomedullin concentrations in spontaneous and stimulated cycles:

relationship to ovarian function and endothelin-1 and nitric oxide

anno pubblicazione: 2002

Marinoni E, Di Iorio R, Villaccio B, Letizia C, Aragona C, Schimberni M, Cosmi EV. Follicular fluid adrenomedullin concentrations in spontaneous and stimulated cycles: relationship to ovarian function and endothelin-1 and nitric oxide. *Regul Pept.* 2002 Jul 15;107(1-3):125-8.

A rare case of ectopic pregnancy. Primary ovarian pregnancy

anno pubblicazione: 1990

Montanino G, Marcoccia S, Montanino Oliva M, Schimberni M. [A rare case of ectopic pregnancy. Primary ovarian pregnancy] *Minerva Ginecol.* 1990 Jul-Aug;42(7-8):321-4.

Reproducibility of the indirect immunobead assay for detecting sperm antibodies in serum

anno pubblicazione: 1989

Franco JG Jr, Schimberni M, Rojas FJ, Moretti-Rojas I, Stone SC. Reproducibility of the indirect immunobead assay for detecting sperm antibodies in serum. *J Reprod Med.* 1989 Apr;34(4):259-63.

Intrafollicular changes in the peri-ovulatory period

anno pubblicazione: 1989

Aragona C, Micara G, Moro M, Verlengia C, Schimberni M, Carenza L. Intrafollicular changes in the peri-ovulatory period. *Suppl Int J Gynecol Obstet.* 1989;1:25-34. Review.

Incidence of multiple gestations in the presence of two or more mature follicles in the conception cycle.

anno pubblicazione: 1987

Stone SC, Schimberni M, Schuster PA, Werlin LB, Weathersbee P. Incidence of multiple gestations in the presence of two or more mature follicles in the conception cycle. *Fertil Steril.* 1987 Sep;48(3):503-4.

Echo-guided extraction of oocytes by perurethral-transvesical route in a program for in vitro fertilization and embryo transfer

anno pubblicazione: 1987

Maruotti G, Schimberni M, Timpano F, Vetrano G, Cetta L, Musenga M, Giallonardo A, Caridà S, Micara G, Aragona C. [Echo-guided extraction of oocytes by perurethral-transvesical route in a program for in vitro fertilization and embryo transfer] *Ann Ostet Ginecol Med Perinat.* 1987 Jul-Aug;108(4):256-63.

An immunobead assay for antibodies to spermatozoa in serum

anno pubblicazione: 1987

Franco JG Jr, Schimberni M, Stone SC. An immunobead assay for antibodies to spermatozoa in serum. Comparison with traditional agglutination and immobilization tests. *J Reprod Med.* 1987

Mar;32(3):188-90.

Metergoline and bromocriptine in the management of tumoral and idiopathic hyperprolactinemia
anno pubblicazione: 1983

Falsetti L, Roggia A, Loda G, Turla R, Scagliola T, Schimberni M, Pontiroli AE. Metergoline and bromocriptine in the management of tumoral and idiopathic hyperprolactinemia. *Horm Metab Res.* 1983 Aug;15(8):380-4.

Treatment of hyperprolactinaemia with metergoline for periods up to 5 years: clinical and biological tolerability

anno pubblicazione: 1983

Falsetti L, Voltolini AM, Schimberni M, Pontiroli AE. Treatment of hyperprolactinaemia with metergoline for periods up to 5 years: clinical and biological tolerability. *Curr Med Res Opin.* 1983;8(5):327-32.
